

Module 1: Agent Theory

Table of contents

1	Introduction	1
2	Learning Objectives	1
3	ANother slide i pressume	1

1 Introduction

...

2 Learning Objectives

By the end of this module, you will be able to:

- Define what an agent is in the context of artificial intelligence.
- Differentiate between various types of agents (e.g., simple reflex agents, model-based agents)

3 ANother slide i pressume

Here is something for the slide

How do I make a course toc?
